Weston, WI 54476

Dear Business Partner,

In the fall of 2011, Idea Charter School will open its doors to Everest Area students providing a non-traditional educational environment dedicated to giving students autonomy over their learning. At Idea Charter School students will design projects to meet learning objectives. As part of the project-based learning process, students will also work with community mentors to strengthen and extend their knowledge

As a charter school, we are an extension of the D.C. Everest Area School district, but operate as a separate entity. To ensure sustainability, it is up to each charter school to form community partnerships. Community partnerships provide our students with mentors, outside learning opportunities, and financial support.

We are inviting you to join in partnership with us as we begin this exciting new venture. You can support our school by providing mentorship opportunities for our students. In addition, our financial sustainability will come through fundraising initiatives, donations and area sponsors. As a business sponsors, your business will be featured on our website and be recognized on our Facebook page with a public thank you of your donation.

In our early stages our needs are many, but as we become an established educational option for area students, we believe we will become a valuable member of our community. As our students engage in working mentorship/internship relationships with area business, they are preparing to become the future workforce that already has an established, local workplace relationship.

Thank you for being an important part in the early stages of our school's development.

Sincerely,

Idea Charter School Advisors
